regulations. Secondly, it contributes to the capacity development of the elected representatives and staffs of the local governments through trainings, providing training materials and contents and generating resources. And thirdly, it contributes in provoking, advocating and lobbying the capital based INGOs to invest in projects (related to climate change, disaster and SWM) in the local governments. The EFLG Framework 2013 had been issued to add value to the environment-friendly local development concept encouraging environmental protection through local bodies. The vision of this framework is to establish environmental governance and create a sustainable environment-friendly society at household, village, municipality and district levels.

2. Objectives of the workshop

This workshop has following objectives:

- To introduce the importance of Local Economic Development through promotion of micro-scale entrepreneurs.
- To introduce the importance of Solid Waste Management through proper segregation of different types of wastes and its management through different methods such as vermi-composting, reusing and recycling of wastes, landfill sites etc.
- To orient on the impacts of climate change and disasters and their adaptation and mitigation measures.
- To orient on the possible climate resilient and disaster risk management activities that can be introduced in their respective LGs.

3. Participants

The Mayors and Chief executive officers of the below mentioned sub-metropolitan and municipalities of all the provinces except Province 3 will be the participants in this workshop. In addition to that senior officials from MoFAGA, representatives from LGCDP, UNCDF representatives and other interested DPs will also participate in the workshop. As such, a total of 400 participants are expected in the workshop including drivers and others. A tentative estimate of the participants from the provinces are given in the table below:

	Doti	Dipayal Silgadi, Shikhar	4
	Kailali	Dhangadi, Tikapur, Ghodaghodi, Lamki Chuha, Bhajani, Godavari, Gauriganga	14
	Kanchanpur	Mahakali, Shuklaphanta, Bhimdatta, Belauri, Krishnapur, Vedakot, Punarbas	14
	Dadeldhura	Amargadi, Parsuram	4
			62
Total			320

4. Methodology

The orientation program will be mostly conducted through talks and presentations on plenary sessions which will be followed up by question and answer. A proceeding report of the program mentioning the discussions, queries and outcomes of the program will be prepared for each program in all the provinces.

5. Outputs of the Orientation Programme

The orientation program will enhance knowledge and understanding of LED, SWM and EFLG framework and program to the participants. Secondly, the participants will realize the long-term impacts of climate change, solid wastes and the urgency of adaptation and mitigation measures to be undertaken. And lastly, the participants will be encouraged to promote micro-scale entrepreneurship in their local governments. By the end of the program, a consolidated proceeding of the workshop will be provided.

6. Date and Venue of the Workshop

The workshop will be conducted in the following venues in different provinces:

Province	Venue	Date
Province 1	Biratnagar	23 Mangsir 2075
